MEMORANDUM FOR: Director of Security

FROM: Allen R. Elkins
Director of Finance

SUBJECT: Polygraph Examinations - Office of Finance Applicants

Jim -

The attached letter from a highly regarded applicant puts into writing what we have heard on numerous occasions from other applicants. Our Personnel Officer this morning received a call from another applicant stating much the same and that his polygraph concluded with a coldly stated "incomplete" after three plus hours. This particular applicant stated he had during the examination offered to take a urinalysis and blood test. Another applicant advised us by phone Tuesday of a similiar type experience--having left feeling like a criminal. Many applicants have stated that they consider the polygraph experience more of an interrogation than an examination.
